

The Awareness Team

# Together for safety and respect at university!

## Who are we?

We are a team of students and employees from the fields of geosciences and meteorology.

## What do we do?

Our team offers confidential conversations and support for those affected by harassment or bullying. We listen and stand by your side.

We aim to promote awareness and prevention of harassment and bullying.

We offer information about local resources, hotlines and other support options for those affected.
